Education

George Mason University — Fairfax, VA
Bachelor of Science in Computer Science; GPA: 3.45 — *January 2021 – May 2024*

- Relevant Coursework: Database Concepts, Probability & Statistics, Linear Algebra, Numerical Analysis, Software Engineering, Analysis of Algorithms

Northern Virginia Community College — Fairfax, VA
Associate of Science in Computer Science; GPA: 3.80 — *August 2017 – December 2020*

Technical Skills

Languages: Python, Java, TypeScript, JavaScript, C, SQL
Frameworks & Libraries: Next.js, React, Node.js, Express, PySide6, Prisma, Tailwind CSS
Databases: PostgreSQL, SQLite, MySQL
AI & APIs: Claude API, Claude Code, ChatGPT, REST APIs
Developer Tools: Git, GitHub, GitLab, VS Code, Wireshark

Projects

Manga Translator | *Python, PySide6, Claude Vision API, Pillow, PyMuPDF* — *April 2026*

- Built a desktop application that automates English-to-Vietnamese comic translation using the Claude Vision API for image transcription and translation.
- Designed a modular translation pipeline supporting four interchangeable backends, including cloud AI, offline neural machine translation, dictionary-based translation, and pass-through processing.
- Implemented model selection, image-resolution optimization, and content-hash caching to reduce unnecessary AI API usage, while using background workers to keep the application responsive during batch processing.

Personal Diary Web App | *Next.js, TypeScript, PostgreSQL, Prisma, Auth.js* — *September 2026 - Present*

- Built a full-stack diary web application with Next.js and TypeScript, integrating frontend interfaces, API routes, authentication, and persistent database storage.
- Implemented user authentication with Auth.js and bcrypt password hashing, including unique account validation and session-based access control.
- Designed relational User and DiaryEntry models with Prisma and PostgreSQL and implemented authenticated CRUD operations scoped to individual users.

Experience

Pho Chateau Restaurant — Lorton, VA
Shift Manager — *August 2025 – Present*

- Lead daily restaurant operations in a fast-paced environment, coordinating staff, managing inventory, and resolving operational and customer issues.
- Train and support new employees on restaurant procedures, POS operations, and customer service standards.
- Promoted from Food Server to Shift Manager after demonstrating reliability, communication, and leadership in day-to-day operations.

Apex Internet Café — Vietnam
Computer Technician — *April 2011 – June 2015*

- Assembled, configured, and maintained desktop computers used for daily internet café operations.
- Installed and configured Windows operating systems, software applications, game clients, drivers, and system updates across multiple workstations.
- Troubleshot basic hardware and software issues and provided technical support to maintain reliable day-to-day operations.
